

## Vertex Kules Understand order flow + what range you are in. 1 Point of Entries Invalidation Look for the most extreme OB/SC/IPA Same thing

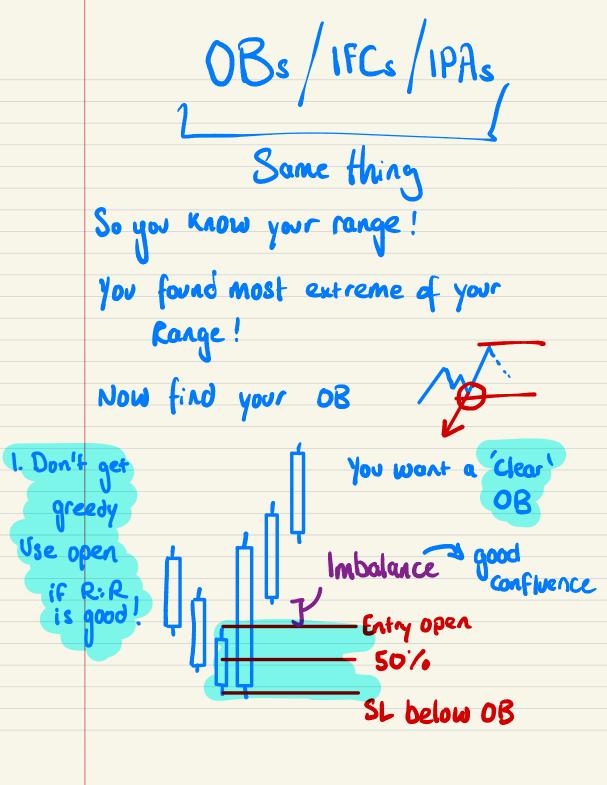

\* If price breaks the range it invalidates your order! = New Range.

### Understand Structure Price does not move like this Aice doesn't move like this either This is reality Understand Swing Points = Determine Trend Minor Structures This is the = Nois reality of inside

## Structure Breaks

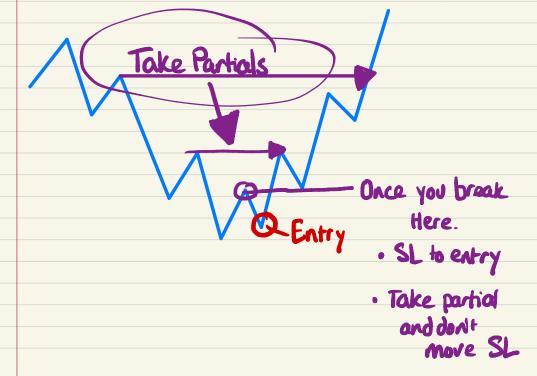

# Managing the trade PAY Yours ELF!

#### THE MARKET OWES YOU FXXX ALL!

Don't expect every trade = 1:100 + 1:10 Consistent is enough.

### Be patient! Keep it simple! Practice! Summay: 1 = Find your trading range 2 - Identify your invalidation points 3 = Look for extreme points (Last reversal point) 4 = find a clear OB - Use open /50% 5 = Pay yourself - follow structure flow

6 = factor spreads + charges!

# What is different with the Vertex Method?

- 1. Our entry is based on
  - 2 Strict Rules
- 2. We can confirm our OBS

  = Higher Strike Rate
- Consistent Rules Consistent Results

Confluences such as:

Wyckoff, momentum, Volume

Premium + discount pricing

These are all factored in our

2 rule process

Not only that -> You get our fime

Tsychology + Motivation.

Everything shared for free here is enough to be Sufficient + Consistent traders!

It's not easy! We make it look easy but thats our experience.

Chart time + practice = Best way
to learn

You will make mistakes

- Don't get pissed off about it + cry
find out what you did wrong!

Learn from mistakes!!
